25 th Season**

COMMODORE'S REPORT

The first race, conducted under the auspices of the LHYC, was sailed on July 6, 1941. Now, 25 years and about 500 races later, we have a healthy family-oriented club. Its strength and its benefits to its members lie in the fact that many do the work. The active cooperation of all the committee members is at the very heart of its healthy growth.

The problems of years ahead will undoubtedly be centered on how to make room for the increasing numbers of people who will want to share with us the exhilarating sport of yacht racing on a lake which already has the greatest sailboat density of any we know.

To the members and employees of the Minneapolis Park Board who, year after year, have supported LHYC in its program, we give special thanks on this, our Silver Anniversary.
