AFTER YEARS OF DESIGNING, REFINING AND PERFECTING OUR SAILS, ONE THING HASN'T CHANGED.

A Bowers sail represents more than the latest computer design for optimum speed and precision. It represents the uncompromised craftsmanship the Bowers brothers have built their reputation on.

Every Bowers sail is painstakingly constructed one at a time. In the same loft. Under the strictest quality control. And under the ever-scrupulous eyes of the Bowers brothers themselves.

To ensure utmost accuracy and reliability, every inch of our highest quality sailcloth is stretch-tested, thread counted and weighed.

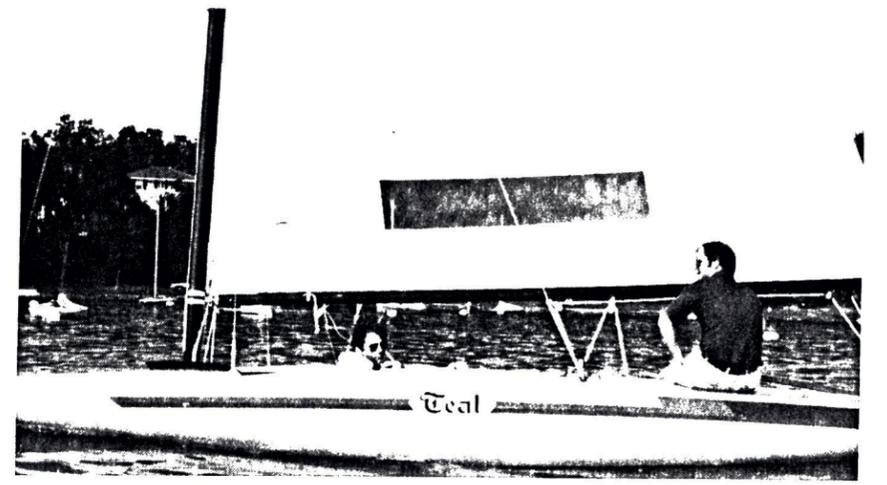

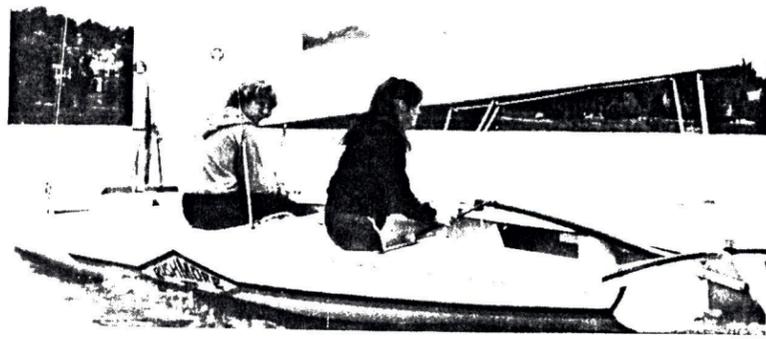

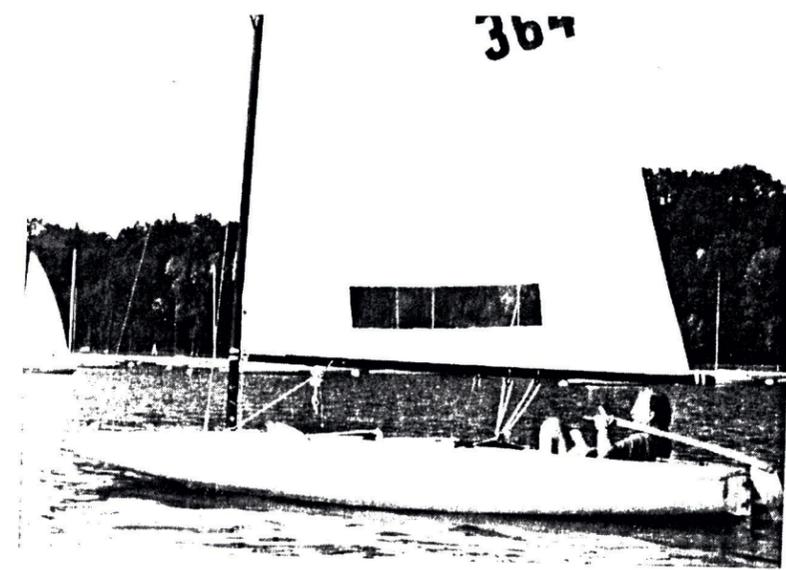

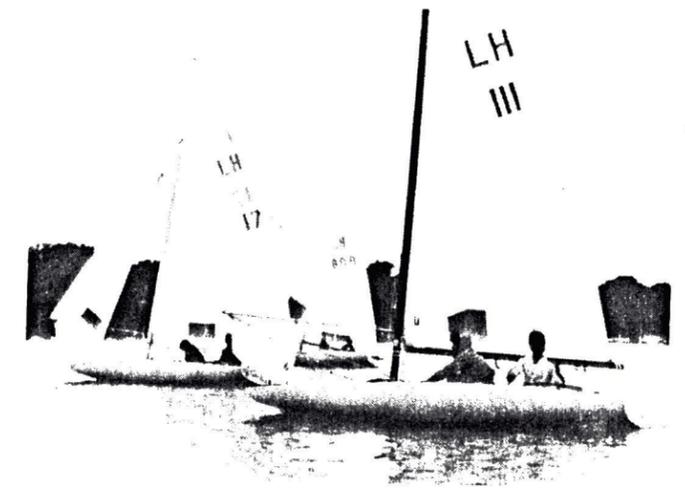

What's more, every panel is taped and double-stitched. So when things get rough, a Bowers sail will hold its shape and pull you through in the clutch.

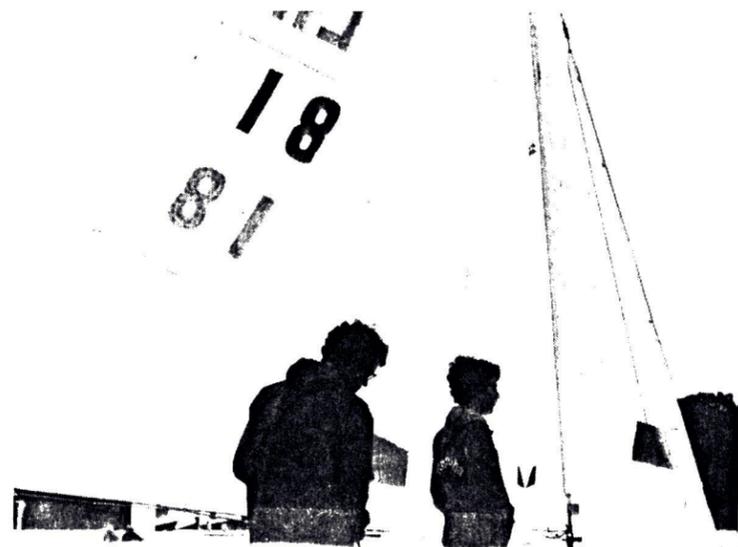

We believe our extra commitment to quality can mean the extra margin of victory for you. Consistently.
